*working on it*

**Time Zone** [🔗](#) 05/2023 – 05/2023  
*Watches E-Commerce*

E-Commerce is built by using ( HTML, CSS, REACT, React-Styled-Components, Redux-Toolkit )  
It Contains ( landing - products - cart - login - register ) pages

- Add Products to the cart and it saves in local storage
- The checkout button doesn't show if you aren't login
- log in & register works fine
- Filter products in multiples ways

**JobHunter** [🔗](#) 05/2023 – 05/2023  
*website helps job seekers find jobs*

Jobs Dashboard After login as a user you can apply for jobs or add new jobs or just can login as a test user just checking the website

**Designer** [🔗](#) 04/2023 – 04/2023  
Personal Website for a designer he shows the world his work and services  
I have built it using HTML, CSS, SASS, React
