---

### fog / full stack e-commerce [🔗](#)

working on it

08/2023 – present

### Time Zone [🔗](#)

Watches E-Commerce

E-Commerce is built by using ( HTML, CSS, REACT, React-Styled-Components, Redux-Toolkit )

It Contains ( landing - products - cart - login - register ) pages

- Add Products to the cart and it saves in local storage
- The checkout button doesn't show if you aren't login
- log in & register works fine
- Filter products in multiples ways

05/2023 – 05/2023

### JobHunter [🔗](#)

website helps job seekers find jobs

Jobs Dashboard After login as a user you can apply for jobs or add new jobs or just can login as a test user just checking the website

05/2023 – 05/2023
